Diego Couto García

I'm a physicist interested in computer sciences, linux, open source and homelabbing.

Currenty studying the last year of my Bachelor's Degree in Physics in Santiago de Compostela.

Spanish: native
Galician: native
English: fluent (studying a C1)
German: basic (studying a A2)

About me

I'm a Physics student passioned for Computer Sciences. I've been tweaking and learning Linux for the past 7 years and I'm skilled on the terminal.

I enjoy coding and homelabbing. This webpage it's made and selfhosted my me. I also have multiple services for personal use (ex. Nextcloud), and a forum (Astranet).

I'm also passionate about other fields, like music. I love learning new things and perfecting skills.

Education

Bachelor's Degree in Physics in Universidade de Santiago de Compostela (September 2021 – Present)

- Doing Bachelor's Thesis on simulation of the fluids on the inner ear for vertigo treatment
- Simulated the dynamics of noble gases in Fortran

Experience

Internship in Eptisa A Coruña (June 2025 – July 2025)

- Automated vehicle routing for garbage processing using machine learning
- Collected data in field using QField and processed it using QGIS

Projects

Astranet (November 2025 – Present)
- Forum for the community of a Philosophy club
- Built on Discourse (using Docker)
- Hosted on a personal computer using Cloudflare

CV-Webpage (January 2026 – Present)
- Built for learning the basics of HTML, CSS and web design
- Selfhosted on a Raspberry Pi using Cloudflare

Momentum Magazine (September 2025 – Present):
- Faculty's magazine, made by the students
- Working on editing articles and formatting in Latex

MCA-tools (March 2026 – Present):
- Data analysis tools to simplify gamma spectroscopy with multichannel analyzer
- Written in Python and hosted in GitHub

Skills

Programming Languages: Python, Fortran, Bash Scripting

Software: Star-CCM+, Docker, Git, LaTeX, QGIS

Languages

Spanish: native
Galician: native
English: currently preparing the title C1 in Cambridge
German: currently studying a A2 course

Courses

Introduction to Quantum Computing (February 2025 – March 2025)
- 5th place in the HaQaton by implementing Quantum Machine Learning algorithms using Qiskit

A1 German Course (2025)
- Coursed in the Escola de Linguas Modernas, USC
